# Cookie Audit - Full Report

**Site:** <https://www.infolaw.co.uk/>  
**Date:** 03 December 2019  
**Pages:** 100

## your full report

This report was generated by searching **100** pages of your site and analysing the content, templates and 3rd party elements allowing us to record any cookies found. Pages that are accessed via embedded forms or any pages that are not directly linked from your site may not be included in the results (unless we added a specific setting for these).

It's useful to consider this report, and the results contained within, as the starting point of 'ensuring your house is order'.

In our experience, the detailed breakdown often throws up a few surprises - often through the use of content that may have been inherited or laying around for a long time - and we think this is a great opportunity to have a thorough 'website cleanse'.

# summary of findings

The table below gives a summary of the audit of <https://www.infolaw.co.uk/>, dated **03 December 2019**.

## Pages checked

Your results are based on the audit of **100** pages. To compile the results we reviewed page HTML, read the content and subsequently then operated your site within a browser allowing our JavaScript engine to execute scripts.

## Link issues

During the audit we found **6** links that had issues - such problems may prevent us, visitors or search engines from accessing areas or sections of the site. This information can be provided in a separate report, upon request.

## Web Estate

We also provide a report of the **176** sites you are integrated with, along with a detailed breakdown of your own sub domains (**0**) and likely organization domains (**0**). Your online presence has probably grown over time - often lots added but very little removed. Many clients find this information can be used effectively to remove old content, and as the basis for prioritizing further site audits.

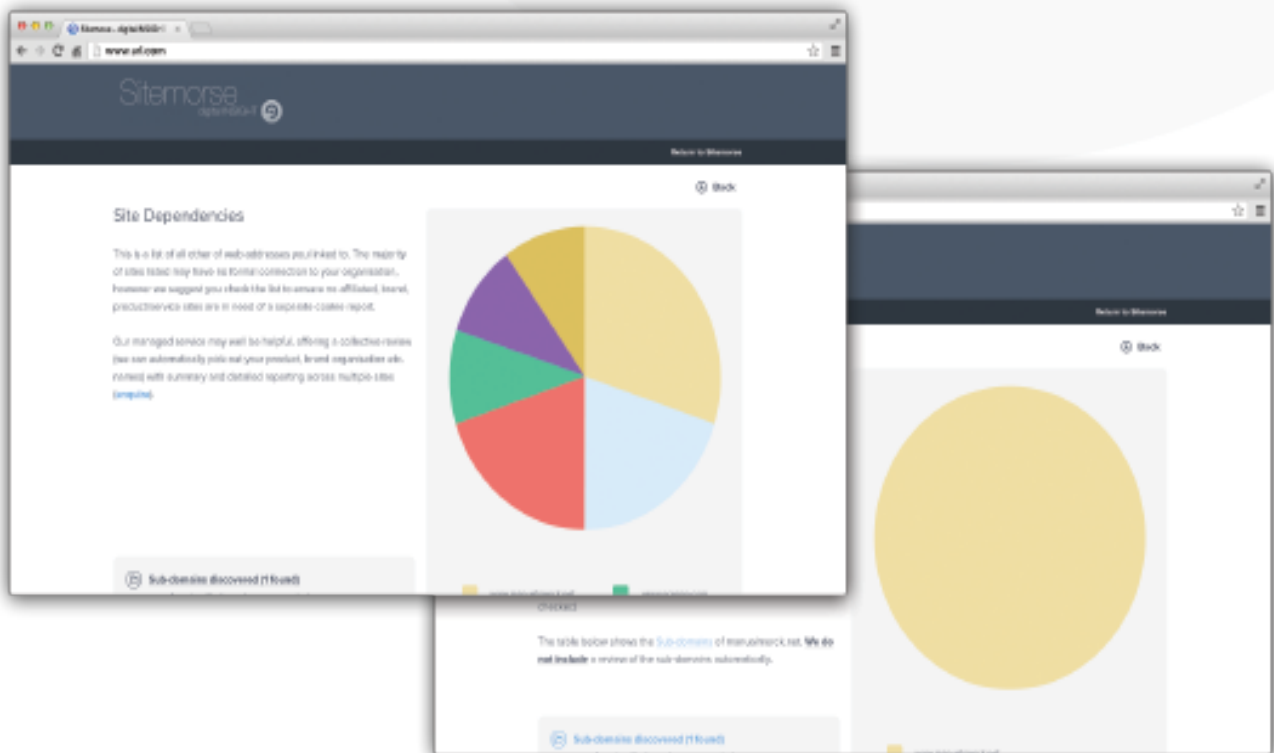

Session cookies set by <a href="https://www.infolaw.co.uk/">https://www.infolaw.co.uk/</a> Cookies set by your site, which are deleted when the visitor closes their browser.	<b>5</b>
Session cookies set by third parties Cookies set by a site your site is connected to, which are deleted when the visitor closes their browser.	<b>0</b>
Persistent cookies set by <a href="https://www.infolaw.co.uk/">https://www.infolaw.co.uk/</a> Cookies set by your site, which are stored on the visitor's device and expire on a given date.	<b>20</b>
Persistent cookies set by third parties Cookies set by a site your site is connected to, which are stored on the visitor's device and expire on a given date.	<b>4</b>
Flash cookies found Flash movies can store information in "Flash Cookies" which are kept on the visitor's device.	<b>0</b>
JavaScript code that may set cookies List of JavaScript code and files found on your site which may set cookies.	<b>0</b>
Flash movies found List of Flash movies found on your site which may set cookies.	<b>0</b>

# your web estate uncovered

Your online presence has probably grown over time - it's common for a lot to be added (new services, content etc) - but very little removed.

Online you will find the details of the **0** sites we found that you are integrated with, along with a detailed breakdown of the **0** sub-domains and the **175** sites that are likely owned by your organisation (sites that contain your brand name).

Many clients find this information can be used effectively to remove old content, and as the basis for prioritizing further site audits.

Go online for: [your web estate uncovered](#)

## how to use this report

Review the findings and determine which cookies are essential for the efficient operation of your site. Consider what could be removed and what is absolutely essential for optimum functionality and visitor experience.

Check there are no cookies adding additional load-time which might disrupt the efficient operation of your site.

3rd party cookies found are detailed in the report. These are cookies which are set by third party content providers, analytics services or advertising servers. Although these cookies are not set directly by your site they are your responsibility as they are set as a direct consequence of the user visiting your site and can enable other organizations to snoop on your visitors and their activities - is this affecting your competitive advantage?

JavaScript code that appears to set cookies is detailed in the report. Manual inspection is required to determine the exact name and nature of the cookies.

Flash movies found are detailed in the report as "Flash cookies" are also covered by this legislation.

We also suggest you take relevant and appropriate legal advice in respect to the potential risk of contravening an individual's privacy.

# an example of a reporting page

An example of the detail we report to is provided below.

For those utilising the corporate estate services, we can also offer the summary and detailed findings in alternative formats for use with internal systems.

	Domain	Path	Name	🔒	Expiry
<b>Domain</b> The domain name to which the cookie applies.	www.merck.com	/	unique_visitor	No	27 Aug 2015
	<a href="http://www.merck.com/index.html">http://www.merck.com/index.html</a> ↖️ <a href="http://www.merck.com">http://www.merck.com</a>				
The first page we saw that set the cookie. If this page is not on your site then the chain of URLs that lead to this page from your site are also displayed. The first address listed (s?ukws...) is the web address that set the cookie. The last address (/stayahead) is the page on your site that included this content.	doubleclick.net	/	id	No	26 Aug 2016
	<a href="http://ad.doubleclick.net/activity;src=887836;type=merck427;cat=about291;ord=1;num=1?">http://ad.doubleclick.net/activity;src=887836;type=merck427;cat=about291;ord=1;num=1?</a> ↖️ <a href="http://www.merck.com/about/home.html">http://www.merck.com/about/home.html</a>				
<b>Path</b> Section of the site the cookie applies to.	www.merck.com	/exp/testsite	unique_visitor	No	27 Aug 2015
	<a href="http://www.merck.com/index.html">http://www.merck.com/index.html</a> ↖️ <a href="http://www.merck.com">http://www.merck.com</a>				
<b>Name</b> The name of the cookie found. For your own cookies this hopefully is a name your web team will recognize.	doubleclick.net	/	test_cookie	No	27 Aug 2014
	<a href="http://ad.doubleclick.net/activity;src=887836;type=merck427;cat=about291;ord=1;num=1?">http://ad.doubleclick.net/activity;src=887836;type=merck427;cat=about291;ord=1;num=1?</a> ↖️ <a href="http://www.merck.com/about/home.html">http://www.merck.com/about/home.html</a>				
Is the secure flag set? Is the cookie only sent over secure (encrypted) connections.	doubleclick.net	/	test_cookie	No	27 Aug 2014
	<a href="http://ad.doubleclick.net/activity;src=887836;type=merck427;cat=about291;ord=1;num=1?">http://ad.doubleclick.net/activity;src=887836;type=merck427;cat=about291;ord=1;num=1?</a> ↖️ <a href="http://www.merck.com/about/home.html">http://www.merck.com/about/home.html</a>				
<b>Expiry</b> This is the expiry date observed when we ran this audit. However, please note that expiry dates of cookies are very often dynamically set.	www.merck.com	/	unique_visitor	No	27 Aug 2015
	<a href="http://www.merck.com/index.html">http://www.merck.com/index.html</a> ↖️ <a href="http://www.merck.com">http://www.merck.com</a>				

# session cookies found

These are temporary cookie files, which are erased when you close your browser. When you restart your browser and go back to the site that created the cookie, the website will not recognize you. You will have to log back in (if login is required) or select your preferences/themes again if the site uses these features. A new session cookie will be generated, which will store your browsing information and will be active until you leave the site and close your browser.

## The 5 instances of session cookies found

# persistent cookies found

Persistent cookies help websites remember your information and settings for any future visits. This results in faster and more convenient access since, for example, you don't have to login again.

Besides authentication, other website features made possible by persistent cookies include: language selection, theme selection, menu preferences, internal site bookmarks or favorites, among many others. On your first visit, the website is presented in default mode. During your visit, you select your preferences and these preferences are remembered, through the use of the persistent cookie, the next time you visit the site.

For example, a website may offer its contents in different languages. On your first visit, you may choose to have the content delivered in French and the site may record that preference in a persistent cookie set on your browser. When you revisit that site it will use the cookie to ensure that the content is delivered in French. A persistent cookie enables a website to remember you on subsequent visits, speeding up or enhancing your experience of services or functions offered.
